

MARK XP: ☐ ☐ ☐ ☐

Whenever you...

- ...**Point out** a long line of code
- ...**Point out** a complex conditional
- ...**Point out** duplication
- ...**Point out** an unnamed variable or method
- ...**Propose** an action for deodorizing the code

Or when you...

- ...Make an XP action from a previously completed Level 3 playbook

THE NOSE

“Something’s rotten in Denmark.”

With the sensibilities of a technical sommelier,
you sniff out the smelly and malodorous elements
in the code. Nothing escapes the Nose!

**WHEN YOU MARK
YOUR LAST XP BOX...**

Add a new playbook and
A NOSE
badge to your mob
